

St Margaret's Academy

Progression in learning

Learners/parents

Teachers

All pupils now have access to a Teams page for every subject. Click the image to be taken to your Glow login.

Teachers will welcome pupils to their online lesson at the start of each period and set the task/s for that period. They will answer questions/provide support.

Our school timetable remains exactly the same as if you were in school. You should log in to 'Teams' at the start of every lesson, search for your subject and then your teacher.

Although you may need to ask questions of teachers outwith your timetabled period, teachers may not be able to respond outside your allocated time.

You should engage in online dialogue, submit answers, and return work using the Teams function. You can access more information about these functions on your help guide.

If you forget your Glow password email: Wlstmargarets-ac@westlothian.org.uk
This will be reset as quickly as possible.

Interval and lunchtimes should be the same as if you are in school. You should take a break/get a refreshment and be ready to log back in for the next period!

Teachers will be working hard to support you throughout this period. If you are requiring any help or advice please just ask your class teacher or a member of Pupil Support.
